Dealer and Grower of
Exciting N E W Varieties

Greetings to all old friends: It has been a pleasure to serve so many of you nice folks. We hope our 1955 selections and our services will continue to warrant confidence from both old and new friends.

New friends: Growing violets is a fascinating and a delightful hobby. You will find violets very easy to grow from leaves. You will thrill to each new leaf and bud as they unfold. You will be proud and happy when you see your windows full of beautiful flowering plants you, yourself, have grown. Most varieties will produce flowering plants in 5 to 8 months — depending on your growing culture and conditions.

Service is our chief commodity. We offer no so-called bargains nor quantity prices **Quality is not expensive — it pays.** Please do not ask us to mail rooted-cuttings. After several years' experience, we have found that fresh cut leaves travel more safely than rooted leaves. There is no danger of damage from dry roots or root and leaf rot from surplus moisture. Our leaf-cuttings are fresh cut leaves from strong, healthy, stock plants especially reserved for propagating purposes. The plants have not been "forced". Each leaf is labeled with its authentic name, and separately sealed to preserve growing vitality. Shipments are scientifically packed and sent first class mail to insure reaching you quickly and in the best condition. A packet of special chemical and simple growing instructions are included in all shipments — to prevent leaf-rot while rooting and, to assure your success. We guarantee safe delivery to any mailing point in the United States or Canada. All orders are numbered as received and promptly acknowledged. Shipments are made in the same order sequence, as soon as weather permits. Hence, we strongly urge you to send in your orders early, to avoid disappointment, because we reserve the right to refund your money if we are unable to fill your order. We **never** substitute unless requested. The attached order blank is for convenience — hurry it back to us so we can make you happy at the earliest possible date.

NOTE: On orders under \$5.00 add 75c handling charges. Orders of \$5.00 and over are mailed without extra charge. No orders accepted from this catalog after October 10, 1955.

PLEASE NOTE: After waiting many years, these DOUBLE PINKS are now available. All were blue ribbon winners at the '54 Convention. While our stock is not too limited, we will not mail DOUBLE PINK leaves **unless** your order **totals** \$5.00 or over. With orders totaling \$7.50 we will include FREE one DOUBLE PINK leaf of **our** choice. With order of \$10.00 YOU choose the FREE leaf. We hope that someone, someday, will develop a yellow variety — but we know of none now.

CODE: Where a star (*) appears after a variety name, the following description is the one supplied by its originator because our stock is not in bloom as catalog goes to print. This is irregular practice, for us, but we have received many requests for these varieties. A letter in a bracket () after a variety name, designates the originator. Abbreviations: L for Lyons; T for Tonkadale; and fol for foliage.

We hope you have found your choice, and — will enjoy "watching the babies grow". Will look forward to meeting you at Convention.

Cordially yours,

(Mrs. M. J.) Naomi S. Weeks

Please read our **Service** paragraph. We only ship leaves; however, around 300 newest variety plants can be purchased at our Rooms. Also available are white plastic pots and our violet food.

Visitors are always welcome — except on Wednesdays when we are usually out gadding around. **Large Sign at Sidewalk.**
